#PAweek

October 6-12, 2019

Every year from October 6-12, we celebrate National PA Week, which recognizes the PA profession and its contributions to the nation's health. This year, individuals and groups all over the country showed support and gratitude to PAs and the profession over social media using the hashtag #PAweek. Check it out!

This week is always an opportunity to raise awareness and visibility of the profession. Before it was a week-long event, National PA Day was first celebrated on October 6, 1987, in honor of the 20th anniversary of the first graduating class of PAs from the Duke University PA program. October 6 is also the birthday of the profession's founder, Eugene A. Stead, Jr., MD.
