

MARCH 2021

President's Message

[APAOG is proud to announce our first-ever virtual conference](#), which will be addressing disparities in women's health. We will have experts in the field that are passionate about equitable care. As we learn more about maternal morbidity and mortality, unequal access to care, and the disparate outcomes of medical care, APAOG wants to be on the front line of recognizing and addressing these issues. Additionally, we continue to offer excellent webinars; this month, we released the pelvic health and incontinence lecture by Heather Isola, Director of PAs of Mount Sinai Hospital in NYC. We also initiated a new category of webinars that do not offer CME but still provide up-to-date information on hot topics in OBGYN. This month's release is on leiomyomas. Thank you for helping us grow our membership and allowing us to provide additional resources to you. We have more information to come!

Melissa Rodriguez, PA-C

Resources For You

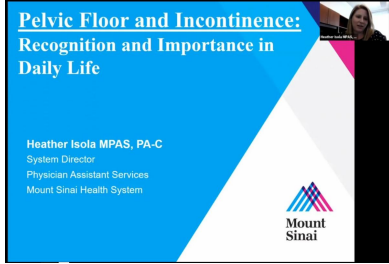

APAOG launched the new [Women's Health Resource Center](#) page on our website last month. This page will be added to throughout the year as more companies and organizations take advantage of our [Partnership Opportunities](#). This creation stemmed from wanting to provide our members with resources and information that may be useful as you continue to treat patients and support women through the healthcare field you are a part of. Please reach out to us with any questions and feel free to share this opportunity with those around you who may find this to be a good fit.

On-Demand Webinars

Pelvic Floor and Incontinence - Recognition and Importance in Daily Life, presented by Heather Isola,

MPAS, PA-C

APAOG is proud to offer members NO COST on-demand CME webinar opportunities that can be accessed at your convenience! The webinar series focuses on topics pertinent to PA's practicing in OB/GYN.

Uterine Fibroids, presented by Heather Hackbarth, PA-C

APAOG is now offering additional educational webinars for members to access at their convenience starting this month. These webinars are not eligible for CME.
