APAOG Webinar - March 14, 2018

Topic: An STI Update: Improving Upon Our Prior Knowledge of Sexually Transmitted Infections

Wednesday, March 14, 2018

5PM PT/7PM CT/8PM ET

Speaker: Kristy Goodman, PA-C

[Register today!](#)

This lecture will focus on a review of the latest edition of the CDC Sexually Transmitted Diseases Treatment Guidelines published in June 2015. We will review current prevalence

data and discuss factors contributing to the recent increase in reportable STDs. We will highlight significant changes from the prior edition of the CDC STD Treatment Guidelines and discuss techniques for prevention, testing, and treatment applicable to everyday clinical practice.

Objectives:

1. Describe the current epidemiology and trends of STDs in the United States, including factors contributing to recent changes
2. Highlight changes made to the current CDC STD Treatment Guidelines
3. Discuss techniques for prevention, testing, and treatment applicable to everyday clinical practice

This program has been reviewed and is approved for a maximum of 1.00 AAPA Category 1 CME credits by the PA Review Panel. PAs should claim only the credit commensurate with the extent of their participation in the activity.

This program was planned in accordance with AAPA's CME Standards for Live Programs and for Commercial Support of Live Programs.

Final Recommendation Statement: Screening for Ovarian Cancer

The U.S. Preventive Services Task Force released today a final recommendation statement on screening for ovarian cancer. The Task Force found the harms of screening to outweigh the benefits and recommends against screening for ovarian cancer in women without signs or symptoms. To view the recommendation and the evidence on which it is based, please go [here](#). The final recommendation statement can also be found in the February 13 online issue of JAMA.
