## Nominate a fellow PA for an APAOG Award Today!

We are pleased to announce the 3rd annual call for APAOG Award Nominations! **Nominations are due March 15, 2019.**

The awards process is the single most important means that APAOG has for recognizing PAs who have made significant contributions in women's health.

Awards will be presented at the APAOG Reception at the AAPA National Conference on May 19th in Denver, CO.

## APAOG Breast Cancer On-Demand Webinar Now Available!

**Topic:** Breast Cancer Screening and Modalities

**Speaker:** Tiffany Riley, PA-C

This webinar is the first in APAOG's 2019 On-Demand Webinars Series! Access this content on your time and schedule, while earning 1.0 AAPA CME credits!

This webinar features APAOG's very own Board Member Tiffany Riley! Tiffany will cover breast cancer, breast cancer screening recommendations, risk factors for breast cancer and how to identify appropriate screening modalities for individual patients.

**Objectives:**

At the conclusion of this session participants should be able to:

- Discuss current breast cancer screening recommendations
- Discuss risk factors for breast cancer
- Identify appropriate screening modalities for individual patients

**[Access Here on the APAOG Webinar Library](#)**

*You must be logged in to your APAOG member account. Contact the APAOG office at 920-560-5620 or [APAOG@badgerbay.co](mailto:APAOG@badgerbay.co) if you need assistance logging in.*

*This program has been reviewed and is approved for a maximum of 1.00 AAPA Category 1 CME credits by the AAPA Review Panel. PAs should claim only those credits actually spent participating in the CME activity.*

***Please note: AAPA credit may only be claimed for this webinar up to 1 year from date of availability (February 28, 2020).***

## Latest News / Clinical Update

### Clinical Update - Female Anatomy and Sperm Success

Researchers at Cornell are placing more emphasis on the role that sperm motility has in successful fertilization. In the past more emphasis has been placed on sperm count followed by morphology, but there is new evidence that the make-up of the female reproductive tract promote success for the strongest swimmers, highlighting sperm motility as a key characteristic. The article written in *HealthDay News* states “A woman's reproductive system presents a veritable obstacle course that stress-tests sperm, making sure that only the strongest swimmers have a chance of reaching a woman's egg”. This new information could lead to adjustments and new technologies in reproductive healthcare that may aid in both natural and assisted reproduction.
